Dear Parents/Guardians:

Thank you for your interest in the Lawrence North High School English program. We are excited to meet your children and facilitate experiences that will help cultivate their academic success and ensure that they are college and career ready. We would like to take this opportunity to inform you of the summer reading requirements.

Currently your child has been placed into an English class best suited to meet his or her academic needs. The expectation of this placement is the completion of a **required** summer reading assignment. Students are expected to read a book (or books), and complete the related assignments. These tasks are designed to help ease the transition from one grade level to the next and prepare students for the type of close reading and interpretive and inferential thinking required. These tasks also provide teachers with a baseline assessment of a student's ability. **Students must exhibit responsibility in completing and submitting any required assignments.** Failure to complete the work may result in academic setbacks. The due dates are listed with the summer homework guidelines.

Summer reading assignments are listed on the LNHS webpage. While books may be purchased (especially if annotations are a part of the reading assignment), they may also be accessed on Overdrive (the Indianapolis-Marion County Public Library's online service which is open to all township residents).

We look forward to challenging your child this year. We would like to thank you in advance for your support in making sure your child completes the summer assignments.

Sincerely,

The English Department
Lawrence North High School
